## New HIPIOWA Direct Premium Online Reporting Tool

<https://form.jotform.com/240527903058052>

We are pleased to announce our online reporting tool which will make reporting your company's Direct Premiums written in Iowa much easier and faster. In the past, you have received a Direct Premium Request form in the mail which you were required to fill out, sign and return so we could calculate your market share for HIPIOWA assessments. The purpose of the survey is for each member insurance company, HMO and non-profit health service organization to report earned premium and subscriber charges for 2023. The online reporting tool described below will replace that mailing and you will be able to fill out, attest and submit your data online. The survey must be completed even if your company has no reported premiums.

To Report Direct Premiums Online:

- Website: <https://form.jotform.com/240527903058052>
- Date Online Survey Tool will be available: February 26, 2024
- Due Date for reporting 2023 Direct Premiums: March 31, 2024

Reporting steps:

- You will then fill out the data fields including the contact information and the 2023 Direct Premiums written (as defined on the site).
- The site will have you attest to the accuracy of the data and then submit from the site.
